Las Arenas Hotel

INTRODUCTION

Born by the desire to recuperate the beaches of Las Arenas and Malvarrosa and his environment for the pleasure of the visitors, the **Spa Hotel Las Arenas**, opened in January, 2006, gets up proudly on what in his day was one of the most emblematic space and loved by the Valencia's habitants: the Spa Las Arenas.

With the desire to give back to this area is initial beauty and taking as a base the architectural model of the pavilions that sheltered the former resort, this building has been constructed with a classic cut that seems to take in his arms the pavilions, now the convention center the gardens and the beach of Las Arenas.

Spectator of exception, due to his nearness to the port, of the celebration of the 32nd America's Cup, the Hotel Las Arenas has turned, in spite of his "youth" in a reference to all those who visit Valencia.
